EDUCATION
Arizona State University, Tempe, AZ.
- May 2017 – Present
- Computer Science (Software Engineering)

Coding Dojo, Bellevue, WA
- May 2018 – August 2018
- Full-Stack Web Development Bootcamp

EXPERIENCE
Software Developer, Startup - Focusloop
Remote - Seattle, WA [Feb 2019 – Present]
- Redesigned and simplified user-interface, while providing functionality and responsiveness.
- Optimized website from 20-45% web performance, accessibility, and SEO per page to over 90% across the entire platform.
- Amended RESTful API for critical security functionality.
- Developed React-Native Application for Android and IOS cross compatibility

Health Care Specialist, U.S. Army
Fort Hood, TX [Sep 2012 – Jul 2016]
- Managed the health and preventative medicine of a company of 120+ soldiers.
  Led team of 8 soldiers; Communicated instructions to meet platoon needs, trained lifesaving skills, and ensured team fitness standards.
- Maintained steady communication and work flow with peers in a field clinic in a hostile environment with mass casualty conditions.
- Practiced emergency trauma skills and minor surgeries in a sanitary clinical setting.

PROJECTS
Set for Summer   Jun 21, 2018
Set for Summer helps underprivileged youth find free activities, food banks and services, and educational opportunities in the summertime. Using Django, JQuery, and the google maps api, my team and I built a responsive website to host information and display locations for free services to help extend help to those in need. My role was to implement the google maps api with AJAX to deliver a more inviting user experience.

Chappy   Jul 28, 2018
Chappy is a real-time chat web application where users can register, add friends, and join channels that provide text and voice communication. My goal was to experiment with a new suite of technologies and see if I could recreate the experience that Discordapp.com brings. My role in this project was to set up the database and to leverage Socket.io and WebRTC to enable real-time communication between clients.
